AUZ 04

Antivandal stainless steel free standing toilet

AUZ 04 is a stainless steel antivandal toilet in a matte finish designed for installation on the floor against a wall or in a space. It is suitable wherever it is not possible to attach a regular toilet to the wall, for example due to a thin load-bearing wall. The standard version of the AUZ 04 comes with outlet directed downwards (can be used as a hygienic replacement for Turkish toilets), on request it is possible to direct outlet from other sides (back side, sideways).

Sets can be assembled with an automatic sensor flushing system AUZ 3, an automatic flushing system with a piezo button AUZ 3P, an antivandal automatic flushing system BSAZ 01 or any flushing system with a tank. The toilet does not have a plastic seat and is, due to its resistance to damage, intended primarily for social facilities with demanding operations, such as highway rest areas, prisons, pubs, etc., where easy hygiene maintenance is required.

Other variants of stainless steel toilets available in the stainless steel toilets or stainless steel security toilets section.

The toilets are made of stainless steel of class ČSN 17240 (AISI 304). Other materials on request (e.g. AISI 316).

For the treatment of stainless steel products, we recommend using Würth detergents – material preservation (order no. 0893 121 K), material cleaning (order no. 893 121 1).

Complete delivery

- Stainless steel WC
- Anchoring material

Available variants

- AUZ 04 Antivandal stainless steel free standing toilet.

Technical details

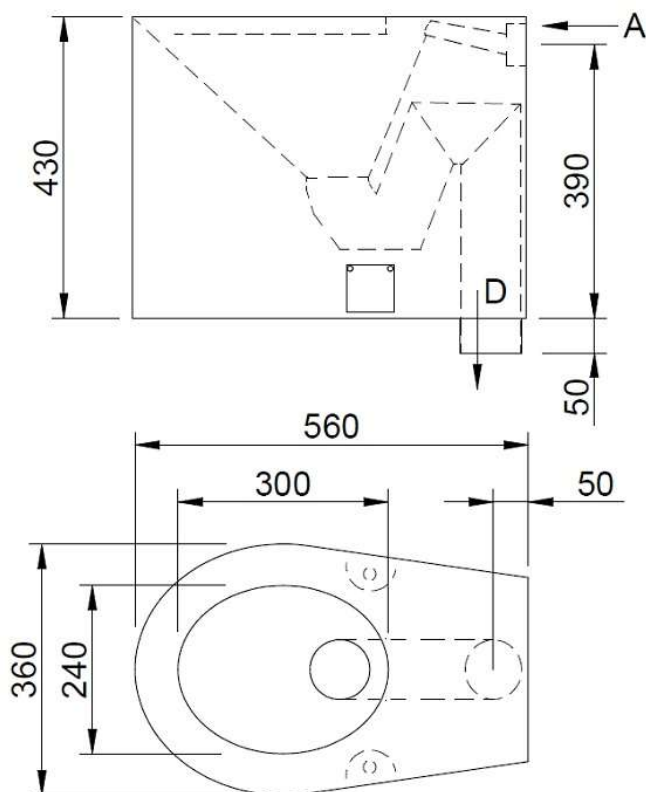

- | | |
|----------------------------|----------------|
| • Water inlet | d = 34 - 50 mm |
| • Min. water flow capacity | 70 l/min |
| • Outlet | d = 90 mm |
| • Weight | 18 kg |

Construction readiness requirements

- Set-up outlet into the floor accordingly the diagram $d = 110$ mm with rubber sleeve for pipe $d = 90$ mm.
- Set-up water inlet according to the diagram $d = 34 - 50$ mm and chosen sealing.
