AUZ 08 INV

Stainless steel freestanding toilet for physically disabled with outlet directed to the back

AUZ 08 INV is a stainless steel toilet with a matte finish for physically disabled. It's a stainless steel toilet designed as freestanding against a wall. The outlet is directed to the back (version with outlet directed downwards AUZ 02 INV). The toilet is based on the standard AUZ 08, which has been dimensionally raised and extended to meet regulations for products intended for people with disabilities. The seating area is equipped with hardened plastic seat to increase user comfort. The toilet also includes a removable backrest recommended by the League for Wheelchair Users' Rights.

Freestanding toilet is suitable for locations where a standard wall mounted toilet cannot be installed for example due to a thin load-bearing wall.

It is advisable to equip the toilet with the automatic flushing system of pressurized water with distant flushing AUZ 3 INV (suitable for physically disabled) or any flushing system with a flushing tank.

You can find other variants of toilets in the stainless steel toilets or stainless steel security toilets section.
