

## Catalog sheet

### Curtain rods

The curtain rod is designed to attach a shower curtain in the bathroom.

We produce it in three versions:

- **curtain rod**

length 900, 1,200, 1,500 mm (other dimensions can be made to order), used for attachment to two walls

- **corner curtain rod**

dimensions 900 x 900 mm, 1,400 x 1,400 mm (other dimensions can be made to order), used for fixing in the corner of the room, with ceiling mounting, L=500 mm, with flanges.

- **U-shaped curtain rod**

dimensions 900 x 900 x 900 mm, 1,400 x 1,400 x 1,400 mm (other dimensions can be made to order), used for mounting on one wall, with ceiling mounting, L=500 mm, with flanges.

Curtain rods are produced in the following surface finishes:

- Polished
- Brushed

#### Complete delivery

- Hanging rod
- Fastening material

#### Standard versions

- R14001001 Hanging rod 900 mm stainless steel polished
- R14001003 Hanging rod 900 mm stainless steel, brushed
- R14002001 Hanging rod 1200 mm stainless steel polished
- R14002003 Hanging rod 1200 mm stainless steel, brushed
- R14003001 Hanging rod 1500 mm stainless steel polished
- R14003003 Hanging rod 1500 mm stainless steel, brushed
- R14101001 Corner curtain rod 900x900 mm stainless steel, polished
- R14101003 Corner hanging rod 900x900 mm stainless steel, brushed

U-shaped curtain rod

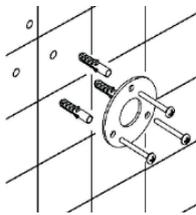

- R14102001 Corner curtain rod 1400x1400 mm stainless steel, polished
- R14102003 Corner hanging rod 1400x1400 mm stainless steel, brushed
- R14201001 U-shaped curtain rod 900x900x900 mm polished
- R14201003 U-shaped hanging rod 900x900x900 mm brushed
- R14202001 U-shaped curtain rod 1400x1400x1400 mm polished
- R14202003 U-shaped hanging rod 1400x1400x1400 mm brushed

### Technical details

- curtain rod
  - Length 900, 1200, 1500 mm
  - Stainless steel tube: d=30; d=25 mm;
- corner curtain rod
  - Dimensions 900 x 900 mm and 1,400 x 1,400 mm
  - Stainless steel tube: d=25 mm;
  - Ceiling mount 500 mm; stainless steel tube d=12 mm
- U-shaped curtain rod
  - Dimensions 900 x 900 x 900 mm and 1,400 x 1,400 x 1,400 mm
  - Stainless steel tube: d=25 mm
  - Ceiling mount 500 mm; stainless steel tube d=12 mm

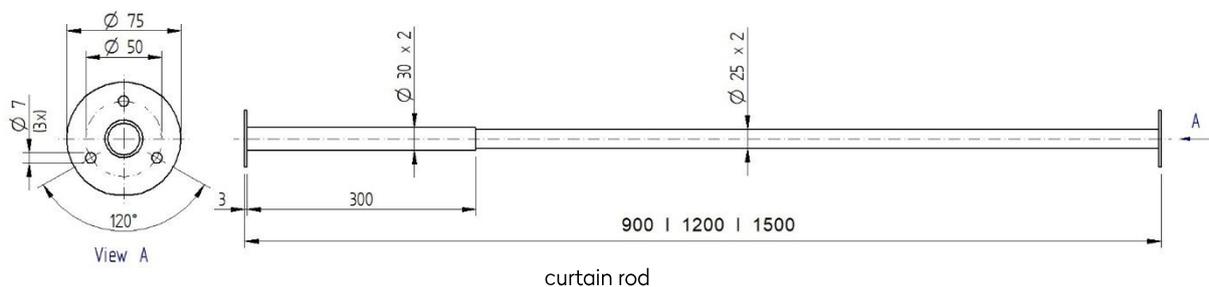

### Construction readiness requirements

For installation, use a drill of the appropriate diameter, according to the enclosed dowels. For attachment to the wall, using the enclosed screws and dowels, it is necessary to use all anchor holes.

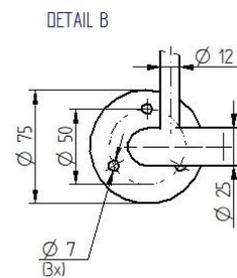

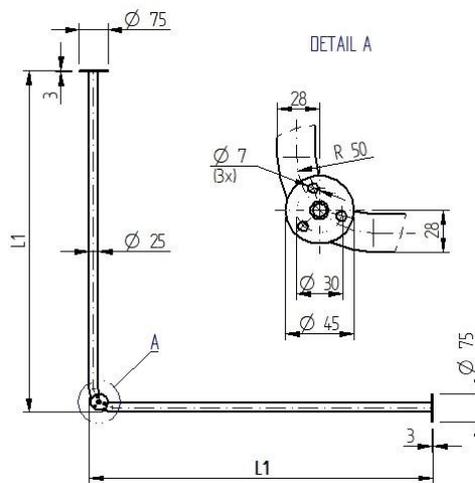

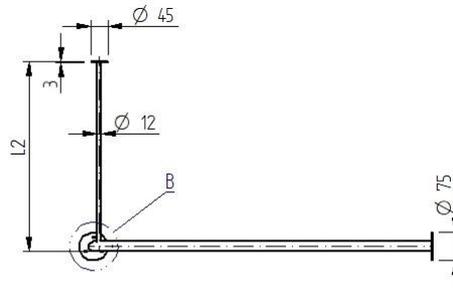

The enclosed anchoring material is intended for sufficiently load-bearing walls (solid brick, concrete). For walls made of other materials, it is necessary to select the appropriate anchoring material.
